

JOSHUA ANSAH

+233539672914 | joshua.albert.ansah@gmail.com | Accra, Ghana

Summary

Highly motivated Full Stack Engineer with 3+ years of experience developing and deploying web and mobile applications. Proven expertise in the MERN stack (MongoDB, Express.js, React.js, Node.js), Next.js, PostgreSQL and Flutter/Dart. Seeking to leverage skills in frontend and backend development to create exceptional user experiences and contribute to innovative projects. Passionate about continuous learning and staying current with industry trends.

Experience

Verified Global E Transport | Accra

Lead Software Engineer | 03/2025 - Present

- Spearheaded project management for a development team using Notion, optimizing workflows for task assignment, progress tracking, and goal alignment.
- Led the execution of complex technical tasks, including system architecture design and critical bug resolution, ensuring project momentum and unblocking team progress.
- Authored and presented weekly stakeholder reports detailing progress, potential risks, and key outcomes, enhancing alignment between engineering initiatives and business objectives.

Fluid Finance Technologies | Accra

Full Stack Engineer | 10/2024 - Present

- Resolved 40+ bugs across Flutter mobile apps and Next.js dashboards, boosting crash-free rates by 25%.
- Optimized Flutter UI performance (lazy loading, widget reuse), reducing average frame render times by 35%.
- Built interactive data visualizations and enhanced paginated datatables in Flutter for finance and operations dashboards.
- Paired with fellow engineers to brainstorm ideas, debug problems and review code.
- Designed and implemented scalable application programming interfaces.

Seymo | Accra

Software Developer | 03/2023 - 09/2024

- Actively participated in the full systems development lifecycle (SDLC), from requirements gathering and analysis through to development, testing, and production.
- Contributed significantly to the development of scalable software solutions for both web and mobile applications using Next.js, Flutter and Express.
- Developed intuitive, user-friendly interfaces that streamlined application management and improved user interaction.

Freelance | Accra

Full Stack Developer | 02/2022 - 09/2024

- Tourizilla Landing Website (Q1 2024): Co-developed a responsive landing page using Next.js and Sanity CMS.
- Moyosore Portfolio & Blog (Dec 2023): Designed and built a full-stack web application featuring blog posts and audio content using Next.js, Express, Sanity CMS and MongoDB.
- Shine Energy Website (Q3 2023): Developed the company's official landing page using Next.js, Express and MongoDB.
- Green Ghana Mobile App (May 2023): Contributed key features to the development team for this seedling request application using Flutter and Firebase.

Spayces | Accra

Front End Developer | 09/2022 - 11/2022

- Contributed to developing complex, responsive web application features using React.js.
- Built and optimized landing pages, ensuring seamless integration and cross-browser compatibility.

Ghana Tech Lab | Accra

Flutter Developer | 09/2021 - 08/2022

- Co-developed interactive mobile application prototypes using Figma, effectively showcasing concepts and gathering stakeholder feedback.
- Collaborated within a team environment to build full-stack websites (April 2022).
- Contributed significantly to the development of 'The Mechanic' mobile application using Flutter/Dart.

Education

Skills

- **Programming Languages:** JavaScript, TypeScript, Dart.
- **Frontend Frameworks and Libraries:** React.js, Next.js, TailwindCSS, Material-UI, Bootstrap.
- **Backend Frameworks and Libraries:** Node.js, Express.js, Nest.js.
- **Mobile Framework/SDK:** FlutterDatabases: MongoDB, PostgreSQL, Firebase.
- **Tools & Platforms:** Git, GitHub, Notion, Figma, Docker, CI/CD.
- **Methodologies:** Agile, Project Management, SDLC.
- **Soft Skills:** Communication, Collaboration, Teamwork, Problem-Solving.

Projects

Seymo School:

play.google.com/store/apps/details?id=com.seymoschool&hl=enUS/

- School management application (Android). Tech: Flutter, Firebase, Node.js, PostgreSQL.

Moyosore:

moyo-sore.com

- Built web app where users can read blog posts, listen to audio recordings and many more, using Next.js, Sanity CMS, Express.js and MongoDB in the last quarter of 2023.

Shine Energy:

www.shineenergyghana.com/

- Official Website for Shine Energy Company Limited (Shine Energy).

Green Ghana:

play.google.com/store/apps/details?id=org.fcghana.green_ghana&hl=en/

- Green Ghana makes it easy to request plant seedlings from the Forestry commission in Ghana built with Flutter.

Bhagg Bloggs:

bhagg-bloggs-frontend.vercel.app/

- A blogging platform where users can share their thoughts and ideas about anything built with M.E.R.N.

Movie Web App:

movie-website-teebhagg.vercel.app/

- A website that shows various movies and series and details about them built with HTML and TypeScript.

UZI Express:

uzi-express.vercel.app

- An e-commerce web application built with Next.js and Nest.js [Under development].

Certification

- **Learn TypeScript Course** - Codecademy
- **Learn Intermediate TypeScript Course** - Codecademy
- **Learn Advanced React Course** - Codecademy
- **Learn Git and GitHub Course** - Codecademy
- **Learn the Command Line Course** - Codecademy
- **Software Design Principles Course** - Codecademy
- **Flutter & Dart** - Udemy
